

20th Anniversary Conference IGORR organized by:

The 20th Anniversary Conference IGORR (Russia, Kazan, August 30 – September 04, 2020) will be organized by International Group Operating Research Reactors in cooperation with the International Atomic Energy Agency.

The associated IAEA Technical Meeting on Research Reactors Ageing Management, Refurbishment and Modernization will be held as the Side-event.

The IGORR-2020 Programme Committee expects the following key topics reports:

- Research Reactor nuclear fuel cycle
- Low power Research Reactors, critical and subcritical assemblies
- Utilisation of Research Reactors
- Innovative methods in reactor physics and thermo-hydraulics
- New Research Reactor Projects
- Research Reactor operation & maintenance and ageing management
- Research Reactor safety
- Research Reactor security
- Decommissioning and dismantling of Research Reactors and waste management

IGORR Organizing Committee expects over 100 participants from more than 40 countries worldwide for this important event for the Research Reactor Community.

Technical tour to the RIAR site will be organized.

During a visit to the RIAR site participants will see experimental capabilities of the Russia's largest nuclear R&D center and visit reactor facilities SM-3 and BOR-60, which are the unique research reactors in the world.

Key dates:

November, 2019 – Call for Papers and detailed information

February, 2020 – Abstract Submission

May, 2020 – Full Papers Submission
